*We have been a scorpion dealer for 4 years at Celebration Ford Autobody in Moosomin Sask. I am the Body Shop manager and have been for 1 1/2 years. I have worked at Celebration Ford for 3 years. Previous to this I owned my own towing business in Moosomin area for 8 years.*

*We have been using the scorpion product for 4 years and if you follow the application procedure, we have had absolutely no come backs what so ever in the 4 years.*

*We have used this product on boat trailers, tool boxes, slip tanks, car trailers, small utility trailers, house decks, steps, and of course in truck boxes. Since we are a dealership, in the used truck department we spray the inside the boxes and it makes a well used box look like new again and increases the value of the truck. When a truck is on the lot with a scorpion boxliner sprayed in it, it is an easy sell to a customer that is looking at a plastic boxliner. With the variety of colors available to the customer it helps clinch some deals.*

*We have a very good clientel here with other dealerships getting scorpion liners sprayed at our dealership.*

*I highly recommend scorpion spray-in boxliners because of their high resistance to everyday hard work and the ease of repair if you had to. (and we have never had to). The company has been very easy to deal with and when they promise something they have always delivered. Next day service has been a given.*

Randy Fyke
